

Get More Leads!

Here is an easy way to generate more leads from job sites or trade shows.

This flyer can have YOUR company name, phone number and logo at an incredibly low cost!

We will insert your name, number and logo (if available) in these flyers at no charge.

We will send you a PDF of the custom flyer for you to use with your local printer.

These will be set up to print two at a time. If you run 500 sheets, you will get **1,000 flyers!**

Just email your company name and phone number and logo (if available) to: sales@rainflowusa.com

These are perfect for:

- Trade Shows
- Canvassing
- Place on doors surrounding a job site.
- Send to past customers
- Leave a stack at local gas station or other public places

Email your Company Name and phone number and logo (if available) to sales@rainflowusa.com

Don't have a local printer? We can print for you! We will print and deliver 1,000 flyers to you for \$195.00 freight included! Flyers will be printed with the exact information you supply and you can expect delivery within two weeks from payment.

- A pdf, eps or jpeg is acceptable. For best results, the image should be 300dpi.
- An image from a website (png format) is not conducive to printing and may result in a blurry, pixelated finish.
- We will do our best to come as close as possible to a specific pantone color if your logo includes one but we cannot guarantee it.

Pre-payment can be made with Visa or Master Card.
